

SHORTCUT ENABLED, CONTEXT AWARE INFORMATION MANAGEMENTABSTRACT

5 A context aware, shortcut enabled system of presenting information through a user interface, implementing memory prostheses and context-oriented changes in meanings of shortcuts. Embodiments include selecting a context, receiving a shortcut entered through the user interface, the shortcut having a associated with it a shortcut field name set comprising one or more shortcut field names, and associating at least  
10 one context value to the context. Embodiments also include inferring, in dependence upon the context, a context table name and a context field name for a query, creating the query, selecting records from an information database by use of the query, whereby selected records are selected, and downloading the selected records to the client device for display.
